## WELCOME TO MARCH

Dear Parents;

Even though March can be a snowy month, we are looking forward to nice weather to go outside and play in. We do try to go out every day, and we're sending along a friendly reminder to keep their winter gear in their cubbies along with a change of clothes and socks. Their socks can get very wet by the time they come in from outside play.

Some of the children have been bringing in items from home (cars, dolls, etc.). We are discouraging this because at the age of two, the children are just learning to share and the children are so heartbroken when we end up putting their treasures into the cubbies.

The Bumblebees are doing an excellent job playing musical instruments. They ring bells, tap sticks and shake their shakers to music. A lot of the children have become very excited about potty training. If you have any questions or concerns about your child, please feel free to ask us.
